## Magic Tour Colombia March 28 - April 20, 2022

All-inclusive in Colombia, full meals, transportation, domestic flights, hotels, tickets to reserves and local guides.

Maximum group size 8 Persons, maintaining the standards established by good practices for National Government, nature photography, birdwatching and active biosafety protocols.

Colombia is the number one country with the largest bird species in the world, allowing you to enjoy more than 1932 species of birds, of which 84 are endemic and 193 are almost endemic. The country is situated in Northwest of South America and has a variety of thermal floors that range from 200 m.a.s.l. to 5,300 m.a.s.l., passing through dry tropical forest to paramo, this is Colombia's most distinctive plant formation, Páramo is a moderately dry to very wet tropical high-elevation grassland (rainfall c. 1000-2000 mm) that is dominant at the limit of tree growth and continues upward to the limit of plant growth.

This route allows you to observe, photograph and appreciate a combination of wonderful landscapes, sounds of birds and wildlife, you will find a variety of climates; as well as endemic birds of the different states you visit.

This tour includes the magical and romantic Amazon of Colombia, the central western and eastern mountain ranges, a region which showcases birding of the great Magdalena valley, you will find landscapes of green mountains, waterfalls, rivers, and cloud forest. There you will also find the dry forest which occurs across northern Colombia, north of the Andes, locally on the floor of the Cauca and Magdalena Valleys, and east of the Andes, that forest is the most vulnerable and threatened in our Colombian territory, currently only 8% is conserved in the country.

We are committed to the peace process in our country, that is why we support small businesses that have been created by former members of the FARC, with products such as coffee, beer or jams for our customers.

**Note:** Please note that your immigration procedures at the airport may take between 30 minutes to an hour, if you want to exchange dollars, this must be done at the airport on arrival. ATM's are perhaps the easiest place to get Colombian pesos but certain ATM's throughout the country, but best change most of what you'll need at the airport.

**Day of Arrival in Bogotá - Transfer from Dorado International Airport (airport code BOG) to City Express Junior Hotel**

In  
Collaboration  
With

This will be the day of your arrival in Colombia, you will be picked up at Dorado International Airport in Bogotá at 2:00 p.m., whatever your time of arrival, check in at the hotel will be after 3:00 p.m.; this day will be used to rest and adapt to the altitude of the city which is; 2,600 m.s.a.l. (8530 FT).

Overnight at City Express Junior Hotel - <https://www.cityexpress.com/es-co/junior/hoteles-colombia/cundinamarca/bogota/aeropuerto>

### Day 1 Transfer to Leticia, on the Amazon River

Early in the morning we'll return to Dorado International Airport for our flight to Leticia, Amazonas.

We will have breakfast at 6:00 a.m. and will check out of the City Express Junior Hotel, at 6:30 a.m. we will proceed to the airport by shuttle bus.

This will be the first day of our tour, and the day that we arrive in the city of Leticia, it is a Colombian municipality located in the Amazonas of Colombia, which is called the lungs of the world, for its great jungle extensions. It is the capital of the Amazonas state and is located at an altitude of approximately 100 m.a.s.l. (328. ft) The temperature in Leticia is about 27°C.

### 8:00-10:30 a.m. Flight to Leticia

When we arrive at Leticia Alfredo Vasquez Cobo International Airport (LET), we will transfer to Waira Suits Hotel by the hotels shuttle bus.

12:30 -1:30 p.m. Lunch in Waira Suits Hotel restaurant

2:00 pm. Check into Waira Suits Hotel

After checking in, we will visit the Fantasy Island, located on the southern edge of Leticia, it is the gateway to the Amazon River. Depending on the time of the year, you cross fantasy island to the Amazon by small boat and other times of the year, you can cross the divide on foot, due to annual water level changes. On the way you can see floating houses built on the river, as

In  
Collaboration  
With

well as photogenic people from the region, rowing their small dug-out boats. Around 3,000 people live on the fantasy island.

The people who inhabit this portion of the land, do not identify themselves as Peruvians, or Brazilians or Colombians, they are Amazonians; between observing the culture of the locals you can also appreciate bird species such as, Red and white Spinetail, White-winged Parakeet, Lesser Hornero, Spotted Tody Flycatcher, Yellow-browed Sparrow, Orange-back Troupial, Hooded Tanager, Plain-breasted Piculet; Varzea Thrush, Oriole Black-bird among others, then we will finish in the Santander Park, there you can see flocks of different bird species flying over the city, such as White-eyed Parakeet, Dusky-headed Parakeet, among others.

We will have dinner in Tierras Amazonicas restaurant at 7:00 p.m.

### Overnight at Waira Suits Hotel

#### Day 2 The "Kilometer 16 Road, to Bora Ethnicity- Maloka

On this day we will have breakfast at 6 o'clock and at 6:30 a.m. we will travel by bus to the sector that leads to the river, it will take forty minutes. In this area there is a different ecosystem and special birds can be found in very old trees, there will be a possibility to observe bird species such as; Yellow-browed Antbird, Yellow-billed Jacamar, Black-capped Antbird, with any luck, we may see the Pavonine Quetzal, when we arrive at the Maloka (the name that collectively describes the people and the place) for lunch at noon, the natives who live there will receive us, their buildings were made by the natives and everything was made with natural materials, there we will have the opportunity to observe and discuss, their cultural costumes and nature ideals, in addition, they will give us their concept of the species that live

there in an ethnic and ancestral sense, as well as the uses and the meaning they give to tobacco and the coca plant. In the afternoon, 4 or 5 p.m. we will return to the hotel.

In  
Collaboration  
With

At 7:00 pm we will have dinner in the hotel's restaurant.

[Overnight at Waira Suits Hotel](#)

### Day 3 Ceiba Hotel

On this day we will have breakfast at 6:00 am and then we will go by boat to La Ceiba, enjoying the animals and plants that are seen on the tour.

On the way to La Ceiba we will make a stop in a reserve, it will take fifty minutes, to arrive at the Victoria Regia reserve, this natural reserve allows you to admire the largest lotus in the Amazon Victoria Regia, from which the reserve is named, and born to delight you with its very fragrant smell. On our way, we will enter the virgin jungle, visit the Lake of Leaves- of the Victoria Regia and the garden of native species, witnessing an incredible gallery of insects, birds, butterflies and much more, it will be amazing to see the largest aquatic plant in the world, there in its natural habitat, perched on the water's surface. Then we will continue by boat until we reach the Hotel, a further two hours on.

When we arrive at the hotel, we will secure our belongings and have lunch at noon, after which in the afternoon, we will explore the surroundings of the hotel observing the vegetation and wildlife, as well as lizards, frogs, plants as we interact with the local community.

After returning to the hotel and resting a little, we will have dinner at 7:00 p.m. After dinner, between 8 and 9 pm we will be able to do a night walk in search of Owls, Snakes, Tarantulas and poison arrow frogs.

### Day 4 Mocagua Communities

We will have breakfast at 6:00 a.m. in the hotel's restaurant.

Then at 6:30 a.m. we will travel by boat to visit the community of Mocagua, and the species found in this area, this will take thirty minutes but, it may take a bit longer as we photograph, and bird watch various species along the way. The communities that live there have taken responsibility of conserving and preserving the natural treasures that inhabit there, and we will visit to the Amacayacu natural national park, there we can observe several species of birds such as; Sungrebe, Black-fronted Nunbird, Masked Tityra, Russet-backed Oropendola, Black-tailed Trogon, Solitary-black Cacique, Festive Parrot, Citron-bellied Attila, Gray-winged Trumpeter, White-throated Toucan; in addition to admiring the second largest tree in the world "Amazon Ceiba" which is 500 years old, it is also the sacred tree of the Ticuna ethnic group.

At 12:00 p.m. we will return to the hotel, where we'll have lunch.

At 2:00 p.m. we will go to the Maikuchiga Foundation, we will have two options, go by boat and it will take thirty minutes or go walking taking photographs and bird watching and it will take two hours, a distance of a kilometer and a half.

The Maikuchiga Foundation was created in its origins as a rehabilitation center for primates seized from illegal trafficking or voluntarily surrendered, such as "churuco monkey" the most important species to rehabilitate and popularly known as the environmental engineers of the Amazon. The Woolly Monkey is on the red list of critically endangered species by the IUCN, due in large part to the destruction of its habitat, hunting, and the poaching for illegal pet trade.

### Day 14 Ukuku Rural Lodge-La Riviera

At 5:30 a.m. At 5:30 am we will travel by shuttle bus to the Combeima Canyon, located between 1400 and 4200 m.s.a.l. (4593 - 13779 ft) of the foothills of the Los Nevados National Natural Park, East of the cordillera central

side, you can appreciate narrow valleys in the banks and steep imposing slopes up to 90 degrees, exposing the great walls of sheer rock that make up the Canyon, presenting a wonderful landscape to tourists visiting the region, here more than 250 species of birds have been recorded, and it is a place of transit for Broad-winged Hawk, Swaison's Hawk, Mississippi Kite, migrating to North America.

On this day we will visit two of the different places accessible to the canyon, we will begin in Ukuku Rural Lodge, there we will have breakfast, one of my favorite places on earth, the

route by bus will take fifteen minutes from the hotel and then we will walk thirty minutes to arrive at the lodge. We will continue taking pictures and bird watching at the lodge until 7:00 a.m.

At this time, we will look for several of the nearly 300 species of birds that the basin allows entry through several corridors, among them we could hopefully see Torrent Duck, Sickle-winged Guan, the representative birds of the municipality: the Tolima Dove & Tolima Blossomcrown, as well as Emerald Toucanet, Green Jays and more against the spectacular snow-capped mountain backdrop. Very special place!

At 11 am, we will have lunch at La Riviera, an agritourism farm, it takes thirty minutes walking and another thirty minutes by bus, at 12 p.m. we will arrive at the entry to the farm, and we will have to cross the beautiful canyon by cablecar.

In  
Collaboration  
With

At 2:30 p.m. we will return to the principal road to the Combeima Canyon, and we will look for some interesting species of the area, making a tour of a special site which the local government shutdown to create a reservation for the Spectacled Bears, vulnerable in Colombia. This place was commonly traversed by vehicles and is now closed off to vehicular traffic in keeping with the conservation efforts to protect this venerable species, therefore, the road is only open to pedestrians.

Possible species: Tolima Dove (E), Tolima Blossomcrown (E), Indigo-capped Hummingbird (E), Buff tailed Coronet, Fawn-breasted Brilliant, Andean Motmot, Crimson-backed Tanager, Southern Emerald-Toucanet, Yellow-faced Grassquit, White-necked Jacobin, White-bellied Woodstar, there is the possibility of finding the Torrent Duck, Cattle Tyrant, on the way along the river, and among other species that reach the garden feeders.

At 5:00 p.m. we return to Iguaima hotel to relax and at 7:00 p.m. will have dinner in the hotel's restaurant.

### Overnight at Iguaima Hotel

### Day 15 Jardin Botanico San Jorge - Qawana Birding

We will have breakfast at 6:00 a.m. in the hotel's restaurant and then we will check out of the hotel.

This day, we will be heading to the San Jorge Botanical Garden of Ibagué at 6:30 a.m., the route will take thirty minutes; at 7:00 a.m. we will arrive to the reserve, where, in addition to the beautiful birds, you can find different species of Flora, this place is located on the North-Western hills of the Ibague city,

and is an area that has been enriched by a great variety of flora, which serves as food for the wildlife that thrive there also, an ideal place to closely observe many species of birds.

In  
Collaboration  
With

Possible species: Green Kingfisher, White-bearded Manakin, Barred Antshrike, Andean Emerald, Bare-faced Ibis, Colombian Chachalaca, Orange-billed Sparrow, Common Tody-
